# Enclosed Control New Bid Man Takeoff

Please note:  
the new takeoff  
design will not  
work with the  
browser:  
**Internet Explorer**

Please use  
**Chrome** or **EDGE**  
browsers

Click **HERE** to access Take-Off Guides

- Most notable change:** When creating multiple designations, type a Quantity in FIRST, and then click the + button to get a list of multiple designations to name.
- The **Systems Options** drop down guides you through each section- start with **Basic Characteristics** and work the sections from top to bottom.
- CPT choices are now listed in the 'CPT Selection' field under the Starter Configuration section in System Options- Basic Characteristics.
- The **Item Notifications** bell icon shows important validations, alerts and recommendations, including those from various places within the old takeoff.
- 'Modifications'** are now displayed in 'Accessories' under System Options at the top of the screen. These options have been regrouped - type the FEWEST number of characters to use the new search feature.
- Click the pricing summary (numbered list) icon to see your pricing and lead times. Lead time letter codes have been replaced with days. Code U (consult the factory for actual lead time) is defaulted to 9999 days.
- Special Modifications are displayed in 'Special Modifications' under System Options. Click the '+Add Modification' button to add your Special Modification. Edit and Delete options are available under the three vertical dots.
- The Overflow menu (three dots) icon has less frequently used sections.
