

A group of four diverse professionals (three men and one woman) are gathered around a table in a modern office setting with a brick wall background. One man is pointing upwards with his right hand, while the others look on attentively. A laptop, a glass of water, and some small potted plants are on the table.

# How to Use This Guide

## Instructions

This guide serves as a comprehensive list of eLearnings, virtual and in-person trainings offered by Eaton's Electrical Sector Americas Sales Enablement Team for Eaton's North American Sales audience.

## Who

These courses are designed for our North American Sales and licensed sales representative audience. These courses are available to all Eaton employees and distributors.

## Phase

Phasing is the order in which the courses should be taken in a particular market segment. There is not a specific time frame for a given phase; the progression should be at the learner's pace and according to one's schedule and availability.

## Tiers

Learning opportunities from Eaton are organized by market segment and the progression is outlined in tiers. Tier level describes the levels of course complexity. Refer to the Tiers Defined graphic on the right for additional details.

## Registration

Learners can register for courses in Eaton University which is accessed through JOE by employees and MyEaton by distributors and licensed sales representatives. Enter the desired course code in the search field to view available sessions. If you are logged into Eaton.com or MyEaton while viewing this document, then you can click on the enroll button to be taken directly to the registration page.

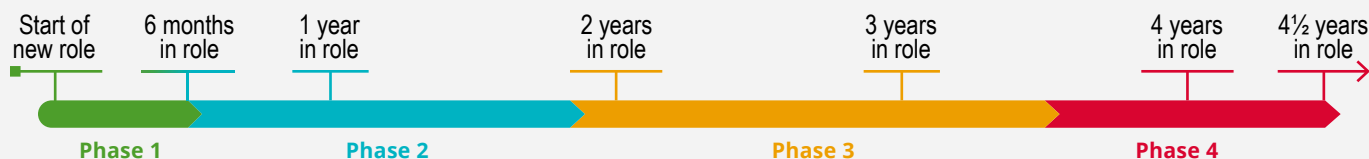

## Help

If you need assistance, additional details, or wish to provide feedback and ideas, contact us at: [ESASalesEnablement@eaton.com](mailto:ESASalesEnablement@eaton.com)

## Tiers Defined

## Phases Defined

**Please note:** This timeline is a suggestion – phases can always be started or completed based on the learner's specific needs.

# New Hire Training Plan

## New Hire Training Plan

The New Hire training plan is recommended to be complete prior to beginning any product training plans.

- New to Eaton
- New to Sales
- New to Industry
